Constant Voltage

SPECIFICATIONS

- 316L SS Pressure Sensor
- Small Profile
- 0 100mV Output
- Absolute and Gage
- Temperature Compensated

The 86 constant voltage is a small profile, media compatible, piezoresistive silicon pressure sensor packaged in a 316L stainless steel housing. The 86 constant voltage is designed for O-ring mounting and OEM applications where compatibility with corrosive media is required.

The sensing package utilizes silicon oil to transfer pressure from the 316L stainless steel diaphragm to the sensing element. A ceramic substrate is attached to the package that contains lasertrimmed resistors for temperature compensation and offset correction.

Please refer to the 86 uncompensated and compensated datasheets for more information on different features of the 86.

FEATURES

- O-Ring Mount
- ◆ -40°C to +125°C Operating Temperature
- Up to ±0.1% Pressure Non Linearity
- Solid State Reliability

APPLICATIONS

- Medical Instruments
- Process Control
- ◆ Fresh & Waste Water Measurements
- Partial Vacuum Gas Measurement
- Pressure Transmitters
- ◆ Tank Level Systems (RV & Industrial)

Notes

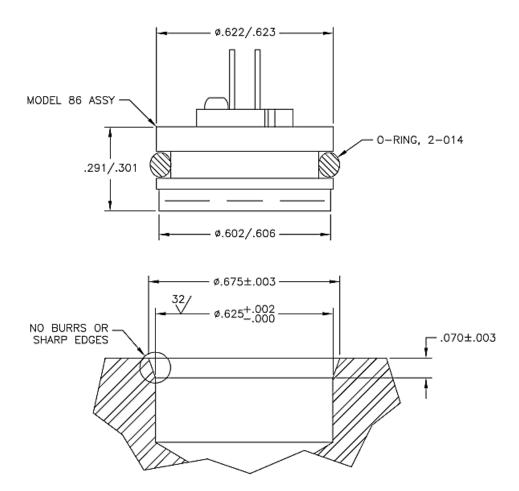

- 1. Measured at vacuum for absolute (A) and at ambient for gage (G).
- 2. Best fit straight line.
- 3. Over the compensated temperature range with respect to 25°C.
- 4. Guarantees output/input ratiometricity.
- 5. Load resistance to reduce measurement errors due to output loading.
- 6. Between case and sensing element.
- 7. The maximum pressure that can be applied to a transducer without rupture of either the sensing element or transducer.
- 8. Maximum temperature range for product with standard cable and connector is -20°C to +105°C.
- 9. Standard gage units are not recommended for vacuum applications, for vacuum applications below ½ atmosphere, consult factory.
- 10. Device markings: Each part shall be identified with model number, pressure range, type ("A" for absolute or "G" for gage), lot number, serial number and date code.
- 11. Shipping/packaging requirements: The stainless steel diaphragm is protected by a plastic cap, each unit will be packaged individually in a plastic vial with anti-static foam.
